AAFS Reference Library Help

The AAFS Reference Library helps interested parties in locating technical abstracts published in the AAFS Annual Meeting Proceedings. The streamlined system is user friendly, providing a means to search using:

- any word(s) in the document,
- author name(s),
- author state,
- author country, or
- any combination of the search options.

This screenshot shows the search interface with several fields highlighted by a red box. The fields are: "Word in Document", "Author Name (Last, First)", "Author State (List States)", and "Author Country". To the right of these fields is a "PERFORM SEARCH" button and a link "Click here for Directions". Below the search fields is a table header with columns for "Document Title", "Author Names", "Year", and "Presenting Section". A pagination bar shows "0 of 0 200 / Page".

After entering the search criteria, select "Perform Search" and you will be presented with a list of all abstracts meeting the search options entered. The list will show the document title, the year it was published and ID number, and the AAFS discipline.

In this example, in the "Words in Document" field, we've typed "Clinical" and selected an author last name of "Logan." Next we selected "Perform Search." The search resulted in several abstracts meeting the search criteria. The results can be further refined by adding additional filters such as city or country. Select "Perform Search" each time you change your selection criteria. You may sort the results by section.

This screenshot shows the search interface with the search criteria entered. The "Word in Document" field contains "Clinical", and the "Author Name (Last, First)" field contains "Logan". The "PERFORM SEARCH" button is highlighted with a red box. Below the search fields, there is a "COMBINE SELECTIONS TO SINGLE PDF" button and a "Last Results Count 4" indicator.

You may view a single document, or select several documents to combine into a single file.

Selecting "View" will provide a copy of a single document. You may then save the file to your hard drive or begin a new search.

The screenshot shows the AAFS Reference Library search interface. The search criteria are: Word in Document: Clinical; Author Name (Last, First): Logan; Author State (List States): ; Author Country: . The search results table is as follows:

Document Title	Author Name	Year	Presenting Section
<input type="checkbox"/> Qualitative Analysis of Designer Stimulants and Bath Salts Chemicals in Blood, Serum/Plasma, and Urine by LCTOF	Corvo, Joseph , Willow Grove PA mogarvey, Ian , Willow Grove PA Logan, Barry K., Willow Grove PA	2013 K77	Toxicology
<input type="checkbox"/> Issues in Age Estimation in Medicolegal Cases: Our Experiences in a Tertiary Care Hospital in India	Sharma, Munish , New Delhi INDIA Lalwani, Sanjeev , New Delhi INDIA Milo, TABIN , New Delhi INDIA Bhalla, Ashu Seth, New Delhi INDIA Logani, Ajay , New Delhi INDIA Behara, Chittaranjan S, New Delhi INDIA Krishna, Karthik , New Delhi INDIA	2013 E60	Jurisprudence
<input type="checkbox"/> Transition to Digital in the Forensic Morgue: Lessons Learned on the Pathway to Greater Efficiency	Wiersma, Jason M., Houston TX Logan, Diane , Houston TX Sanchez, Luis A., Houston TX	2011 G136	Pathology/Biology
<input type="checkbox"/> Effects of Smoking the Synthetic Cannabinoids JWH-018 and JWH-073 on Human Performance and Behavior: Controlled Administration and DUI Case Reports	Miles, Amy , Madison WI Logan, Barry K., Willow Grove PA Xu, Allan , North Wales PA Welsh, Robert W., Warrsburg MO Durbin, Tracey , Warrsburg MO	2011 K43	Toxicology

The system will combine your selections and let you know when complete. Select OK.

Either select "View Combined PDF" to view and save the combined files to your hard drive or change your search options to perform another search.

Select "Combine Selections to Single PDF" after each search and the system will add the new choices to the original file, combining everything into a single document for your download. To retrieve your selections, choose "View Combined PDF" and then save your document to your hard drive.

To create a new combined PDF document: Deselect the "Add to Prior Selected Results" check box and select "Combine Selections to Single PDF"
